BEAUTIFUL Ribbons at Linn & Scruggs? Dec 19-d4w

Quite noticeable improvements have recently been made at Mr. Charles A. Conklin's store room on South Main street, occupied by May Bros., grocers, involving an outlay of about \$200 in cash. A brick partition has been removed, and the depth of the room extended from 58 to 88 feet. The ceiling of the addition is ornamented with wooden batten, and hanging shelves appear on each side of the room, while other equally important changes have been made. It is now one of the best store rooms in Decatur, and needs only a plate glass front to fit it into metropolitan style.

The enterprising barbers, Young & Norman, will soon introduce a new feature to their stylish tonorial parlor, Turkish and hot and cold bath establishment. They propose adding a fashionable steam laundry to the building, and hope to have it in full operation by the middle of April. The fixtures will cost about \$2000. When ready for business the firm with the assistance of an experienced laundry operator from Chicago or St. Louis will be prepared to do up gent's linen in splendid style, and will also do up ladies' fine goods.

The sensation in Decatur to-day among the small boys and boys not so small, were the several free street shows given by two Italians in charge of a large Cinnamon bear, imported from France, and weighing 400 pounds. "Charley" at the command of his trainer, ran up a telephone pole on the corner south of the Palace hotel, to the great amusement of the assembled crowd. The Italians ask \$500 for the bear. Who'll buy?

In the U. S. District Court at Springfield on Saturday D. D. Donahoe, of Assumption, pleaded guilty to selling liquor without paying the special tax, and was fined \$5 and costs. At the regular meeting of the organization held last night, Decatur Lodge of Good Templars voted to give a sociable on Friday evening, April 8th. Will Leiby, Jr., Horace Willey, Herbert Coleman, Mary Sine, Miss Nienker and Miss Wyatt were appointed to make suitable arrangements for the affair.

As the Republican township nominating convention will meet on next Friday evening, it will not be inappropriate to warble the politician's favorite song, "Easy of detection, it unmistakably foretells. The coming spring election."

On Thursday evening next at 7:30 o'clock the Republican voters of the several districts of Decatur township will assemble in primary meetings and select 21 delegates in the first district, 18 in the second, 15 in the third, and 12 in the fourth, to attend the township nominating convention, to be held at the court house on Friday evening, March 25th, at 7:30 o'clock, to nominate a full set of Republican candidates to be voted for at the annual township election, to be held on Tuesday April 5th. Following are the nominees to be made: One candidate for Supervisor, three candidates for Assistant Supervisor, one candidate for Town Clerk, one candidate for Assessor, one candidate for Collector, one candidate for Commissioner of Highways, four candidates for Overseer of Highways, five candidates for Constable, and five candidates for Justice of the Peace. The primary in the first district will be held at Eldorado Hotel House, second, at Rendi Dill's carpenter shop; third, at Freeman's Hardware; fourth, at Sheriff Foster's office. Let every Republican voter attend and help select the delegates that will name the ticket that will be triumphantly elected.

The Henry Schwab Whisky Case. At the February law term of the Macon county court it will be remembered that on the trial of the case of The People against Henry Schwab, charging him with violating the law in the sale of intoxicating liquor at Blue Mound, the defendant was convicted on 39 counts in the information, and Judge Greer fined him \$30 and costs on each count—\$780 and costs. Schwab entered a motion for a new trial and arrest of judgment, and was allowed to go his way in peace on giving the required bond. This forenoon Judge Greer opened court in the circuit court room for the purpose of hearing the arguments of counsel in support and against the motion. The defendant is represented by Hugh Crea, Esq., I. A. Buckingham, Esq. and Judge Thornton. The People's interests are watched by States' Attorney Johns and E. P. Vail, Esq. This forenoon Mr. Buckingham spoke in favor of setting aside the verdict of the jury and granting his client a new trial, basing his remarks on the ground that on the trial the court gave improper instructions in favor of the People and against the defendant. Mr. Crea followed Mr. Buckingham and is speaking as we go to press.

Candidates To-Day. Ezra Friend is out for overseer of highways in the 4th district, an office which he now holds, and for which he is well qualified. He is a good citizen, a hard-working man, and a stalwart Republican. Joseph Harrison, who announced for constable some days ago, has concluded to withdraw from that contest and make the race for overseer of highways for District No. 3, and that he would make a good one, nobody doubts who knows him. John N. Fuller is a candidate for justice of the peace, subject to the Republican convention. Squire Fuller served long in this capacity, and was a most excellent officer. He would make just as good a magistrate again.

THE EDISON LIGHT.

A letter from an Official Explaining the Merits of Its Production, Use and Benefits.

The Decatur Edison Electric Light Company, has been organized and incorporated with a capital of \$50,000, but so far no steps looking to an early introduction of the new artificial light here have been taken. In Bloomington the people are thoroughly aroused on the subject, and public meetings have been held that have awakened a thorough discussion as to the propriety of organizing a stock company immediately. Mayor Rood has written to the Edison Electric Light Co., and in reply has received the following explanatory letter which will be perused with interest by our readers:

THE EDISON ELECTRIC LIGHT COMPANY, 65 FIFTH AVENUE, NEW YORK, MAR. 16, 1931. SIR: Your favor of February 2nd was duly received. The Edison incandescent system of electric lighting differs radically in many respects from all methods of lighting with which the public is familiar. It is the only system intended to serve in the same places and to give the same quantity of light as the best form of gas jet or ordinary domestic use. The method of lighting known as the Edison system, now seen in various places in the public streets, produces a light as pure and powerful as ordinary domestic and commercial use, and is, besides, objectionable to many persons on account of the peculiar hue of its rays. The lamp of the Edison incandescent system gives a warm and mellow ray, with somewhat less of the orange tint than is found in the ordinary gas light. A prime object in the development of this system has been the production of a light adapted to the human eye habituated to gas light.

For general information, it may be stated that the method of supplying light by this system is in all respects strictly analogous to the method of supplying gas. A station for generating electricity is centrally located in (say) each square mile of the city. Electricity is distributed therefrom upon conducted wires and is delivered into houses by branch wires, running through a meter which accurately records the electricity used, and may be distributed to all points upon the premises where a gas jet or other light could be used.

No machinery whatever is placed within the house being lighted. The lamps or burners are so simple in construction as to require no more intelligence in their management than does an ordinary gas burner. This company is now ready to receive formal applications for the use of its system of Electric Illumination. The application should be for a single town or city, and should state the names of the promoter and his proposed associates.

The company will in due time take up and investigate the character and financial standing of the various applicants, and will then enter into negotiations looking to the installation of the system. Respectfully, C. GODDARD, Sec'y.

A Pure Comedy.

Few studies are more interesting than to note the various changes which the stage has undergone during the past times. From the primitive days when a crude representation of cruder ideas was given to a simple minded public, down to the present day of intelligence, there have been changes, improvements and advancements. But it must be confessed that within the past few years there have been many theatrical representations unworthy of the stage, and virtually an offense to the people who have witnessed them. They have furnished a poor collection of ideas, poorly arranged in a so-called play, and poorly represented to the audience. The beautiful play "Rooms for Rent" marks a new era in regard to pure and legitimate comedy in America. It furnishes situations the most original and laughable, and yet perfectly consistent. It gives both pathos and sentiment sufficient to render the comedy enjoyable. It brings out the noble traits of noble characters, and carries a beautiful play to a consistent conclusion. "Rooms for Rent" is a play from seeing which both old and young go away refreshed and better prepared for life's duties. It furnishes the most enjoyable of amusements, and deserves the popularity it has received. Witness the performance at the opera house to-morrow evening. Admission 25, 50 and 75 cents.

"Once in Ten Years." The enterprising ladies of the Universalist congregation will give a grand two nights' fair, festival and promenade soiree at the tabernacle, commencing on Thursday, March 24th, for the benefit of the church, on which occasion many fancy articles will be offered for sale, refreshments of all kinds will be served, and on both days a magnificent dinner, at 25 cents a plate, will be provided. The public generally is cordially invited to patronize this affair. Admission, 10 cents. Go each evening. mar18d4w

SKALPOX AND THE PUBLIC SCHOOLS.

Letter to Parents.

The following is one of the rules adopted by the Board of Education many years ago: "No pupil shall be received in any public school without furnishing evidence satisfactory to the Principal, that he or she has been vaccinated or secured against smallpox." For two or three years this rule has not been carefully enforced, because it was often difficult, and sometimes impossible, for parents to have their children vaccinated. As this dreaded disease is now spreading over the state, it seems not only prudent but a duty to take all possible precautions to prevent its further progress. Therefore notice is hereby given that at the beginning of the next term, March 23, 1931, the above rule will be strictly enforced in all the schools. In all cases of doubt a physician's certificate will be required before the child will be received or continued in the school. E. A. GARTMAN, Supr.
